

For Immediate Release

Alexus Brown

Hobe Sound, Florida – April 13, 2018 – [Alexus Brown](#), Author of *Solid Ground: A Book of Poems*, is a poet who released her first book on February 22, 2018. Her literary work consists of topics about social injustice, love, heartbreak, Christianity, identity, and self-awareness.

Alexus Brown's book contains poems that discuss her perception of the world. She has used her voice to speak on issues others choose to avoid. From self-harm to addictions, she challenges her own beliefs in *Solid Ground* as she uses her creativity to present delicately crafted stanzas.

While interviewing Alexis, she was able to share her thoughts on releasing her first book.

"It was a nerve-wrecking feeling when I finally hit submit. I didn't know if it would be receptive and I was terrified of the reviews. I just felt so exposed because these were my personal thoughts and feelings and to have that out in the open scared me."

Currently, Alexis is working on her second book of poems which discusses singleness, black culture, and the struggle of self-identity. When asked if she would be releasing poems similar to the content she shares on her social media, her answer was simple.

"Yes, those poems reflect my current thought process and I am starting to realize that writing in the moment is where my inspiration thrives. My most vulnerable poems are displayed on social media and to see the reaction from my followers is overwhelming."

Alexus Brown's writing career has just started, and she will not be putting the pen and paper down any time soon.

###
