Dear Mrs. Alexander,

Alexus Brown released her first book of poems that goes into detail of what it means to be a Black Woman in America. Poems in her book, *Solid Ground: A Book of Poems*, not only touch base on racism but it also mentions self-identity and womanhood.

The first time I read your work was the moment I came across an article on Huffington Post. "Remy Ma Explains the Importance of 'Melanin Magic' and Helping other Women," was the article written by you. Remy Ma touched on so many topics we tend to bypass. What stood out was the section that discussed how you can tell a lot about a woman by looking at her childhood.

Sharing the contents of Alexis Brown's book would widen the spectrum of the many ways Black women thrive.

Kindest Regards,

Katasha Brown
